Certain brands are on sale for a limited time, while others are part of an ongoing sitewide clearance. There's also a sale on kitchen tools, small appliances, barware, and more, but the biggest deals are, by far, on cookware. If you're looking to grill up some fresh summer recipes, we suggest taking a look at Staub's enamel cast iron grill pan, which works great both indoors or out. Or, if it's just time to replace some skillets and pans, there's no better time with Scanpan's offerings now at more than 50% off. For those who've recently taken up cooking or breadmaking as a new hobby, or have noticed that their kitchen essentials need a refresh, Sur La Table's spring sale has arrived at just the right moment. Right now the retailer is having a really, truly, actually great sale on professional-grade products like the Vitamix (not a drill), plus cookware from Staub and Le Creuset, and a lot of little kitchenware items that are great for baking and meal-prepping, for up to 60% off the original price. If you've been looking to take advantage of a markdown on a typically pricey bakeware set from Staub, or looking to upgrade the worn-out set of pots and pans you've been hauling around since your first apartment, now's not a bad time to browse. Here, we've rounded up some of the best items on markdown that piqued our interest. All products featured on SELF are independently selected by our editors. However, when you buy something through our retail links, we may earn an affiliate commission. If you're one of the few who hasn't already purchased the buzzy Instant Pot (which handles the job of a pressure cooker, slow cooker, and rice cooker all in one), Sur La Table's sale is an ideal time to stock up—especially at \$20 off its original price. You won't have to worry about your morning eggs getting stuck to the bottom of these nonstick and dishwasher-safe pans. Plus, their stainless-steel base helps prevent warping while they're resting on your stove or in your oven. Bonus: This set is a whopping 50% off right now. You'll be able to slice and dice with the best of them after investing in this dual-speed, compact food processor, which won't take up too much real estate on your kitchen counter. Sur La Table Distributed heat evenly on gas ranges Browned steak evenly Comes with detailed owner's manual Pans are oven safe up to 600°F Lids are oven safe up to 392°F Dishwasher safe Distributed heat poorly on electric ranges Didn't maintain a steady simmer Scorched tomato sauce Nonstick finish didn't release foods easily without fat Oil Exterior stained during use Sur La Table's Green Pan line has a ceramic nonstick coating that lets you to cook on high heat. Composed of stainless steel and aluminum, it was excellent at browning steak. However, food stuck to the nonstick finish and the pans weren't able to simmer at a constant temperature — meaning you'll have to constantly check on your sauces and adjust the heat level while cooking. This line is dishwasher safe but it can stain so some hand cleaning could be required. How We Tested: The Kitchen Appliances & Technology Lab tested 72 cookware lines. We looked at how evenly skillets distributed heat on gas and electric ranges, and how well they browned steaks. We also looked at how well saucepans maintained a steady simmer and resisted scorching sauce. For nonstick cookware, we tested how well surfaces released eggs and pancakes, and how easy they were to clean. We also evaluated how easy all cookware was to use, including whether handles became hot to the touch, and whether each piece is oven or dishwasher safe.
